Fun Facts About Dogs

- A dog can smell about 100,000 times better than a human.
- The majority of a dog's sweat glands are between the pads on its paws.
- Chocolate can make dogs very sick or even kill them because it contains a substance called theobromine, which is like a poison to dogs.
- Dogs hear around ten times better than the average human.
- Smaller dog breeds tend to live longer than big dog breeds.
- More than 30% of families in the United States have a dog for a pet.
- Having a pet dog has shown to make people healthier. They live longer and have fewer heart attacks.

(and more fun facts!)

- There are more than 150 dog breeds, divided into 8 classes: sporting, hound, working, terrier, toy, non-sporting, herding, and miscellaneous.
- According to a recent survey, the most popular name for a dog is Max. Other popular names include Molly, Sam, Zach, and Maggie.
- Dogs can vary in size from a 36 inch (150+ lb.) Great Dane to a 2 lb. Chihuahua.
- Puppies and kittens can be adopted as early as 8 weeks of age. Until then, they should stay with their moms and littermates.
- About 1/3 of the dogs that are surrendered to animal shelters are purebred dogs.
- Contrary to popular belief, dogs do not sweat by salivating. They sweat through the pads of their feet.
- Dogs may not have as many taste buds as we do (they have about 1,700 on their tongues, while we humans have about 9,000), but that doesn't mean they're not discriminating eaters. They have over 200 million scent receptors in their noses (we have only 5 million) so it's important that their food smells good and tastes good.
- The term "dog days" has nothing to do with dogs. It dates back to Roman times, when it was believed that Sirius, the Dog Star, added its heat to that of the sun from July 3 to August 11, creating exceptionally high temperatures.
- Did you know they were female? Toto's role in The Wizard of Oz was played by a female Cairn Terrier named Terry, and the Taco Bell dog is actually a female Chihuahua named Gidget.
- Former US President Teddy Roosevelt had a Pit Bull named Pete.
- An adult dog has 42 teeth.
- If a dog isn't spayed or neutered, a female dog, her mate and their offspring can produce 67,000 dogs in 6 years.
- The most successful mountain rescue dog ever was a St Bernard named Barry, who lived during the early 1800's and saved 40 lives.
- It was recently discovered that dogs do see in color, just not as vivid as we see.
- Nearly all but two breeds of dogs have pink tongues: the Chow Chow and the Shar-pei both have black tongues.
- The Poodle haircut was originally meant to improve the dog's swimming abilities as a retriever, with the pom-poms left in place to warm their joints.
- The top five favorite breeds of dogs in the US are: Labrador Retriever, Golden Retriever, German Shepherd, Beagle, and Dachshund.
- The Basenji is the only barkless dog in the world.
- Greyhounds can reach a speed of up to 45 miles per hour.
- When a puppy is born, he is blind, deaf, and toothless.
- All dogs, regardless of breed, are direct descendants of wolves and technically of the same species.
- A dog's whiskers — found on the muzzle, above the eyes and below the jaws — are technically known as vibrissae. They are touch-sensitive hairs that actually sense minute changes in airflow.
- Dogs are capable of locating the source of a sound in 6/100ths of a second by using their swiveling ears like radar dishes.

Look at you! Being kind of awake and stuff.
You are reading words and probably aren't
even stabbing ANYONE right now! You deserve
a coffee, you magnificent little sunbeam!

A Training Class is not the place for your dog to learn, a Training Class is a place for people to learn. A good dog Trainer doesn't train dogs, a good Trainer teaches people how to help their dogs.

Your dog will only improve if you do the work in the environments your dog will experience, no dog will improve if you only practice in class.

Go to a good class, ask the Trainer questions, so you are clear on what you need to do. Listen to the Trainer fully, the snippets of information they give are important. Practise in class, so your Trainer can see you have a good understanding on how to help your dog's learning.

Then go and practise these skills every day in the real world.

Your dog learns best in the home, garden, car and streets, beaches and fields, they learn in real life, not just in a classroom. YOU learn in class, this is YOUR education session

**Yelling at a dog to stop barking
doesn't work
because the
dog just goes,**

**"Cool, now we're
both barking!"**
